

# ENVIRONMENTAL POLICY STATEMENT

West Coast Poly Pty Ltd is committed to preserving the environment and the prevention of pollution.

The company will:

- Ensure all manufacturing waste is recycled where possible
- Dispose of non-recyclable material via a certified waste contractor
- Educate our employees in the benefits of environmental preservation
- Provide necessary equipment and materials to enable environmental controls to be set in place
- Comply with any statutory legal requirements
- Use sustainable products and materials where possible
- Monitor and review our environmental practices for continual improvement

All employees are responsible for ensuring that all works are carried out in accordance with the company environmental policy. Management is responsible for ensuring the environmental policy is adhered to by all employees.
